Subject: Hot Tub Purchase & Installation

Dear Mr. Dooley & Mr. Norris,

I just wanted to take a moment of your time to express how I feel about your company and its service.

For the past several years Steve Norris has been my hot tub repairman. As a result of Steve and his praises of Great Lakes products I was motivated to purchase a tub from him when my old one failed.

Not only did both of you work hard to ensure that I got the tub I desired ... but, it was delivered in a timely fashion and extra work was done to finish the job the same day (including a site repair that lasted until 11:00 PM).

The tub has been providing my family and I with comfort and warmth during this cold season.

Thank You

Domenick E. Centrone
